

PRELIMINARY PROGRAMME

AUSTRALIAN AND NEW ZEALAND SOCIETY OF PHLEBOLOGY

VEIN TREATMENT 2010

*Saturday 27 & Sunday 28 November 2010
Education Block, Westmead Hospital, NSW, Australia*

**Formal Presentations and Practical Demonstrations
in the Management of Varicose Veins, Venous Thrombosis,
Leg Ulcers & Other Vein Related Disorders**

Saturday 27 November

Session 1:

10.00am- 12.30pm	Welcome	<i>Mark Malouf</i>
	Varicose veins treatment options : putting them in context	<i>Alan Bray</i>
	EVLT and sclerotherapy – concurrent or staged	<i>Geoff White</i>
	Concurrent ELT and foam sclerotherapy	<i>Kurosh Parsi</i>
	Endovenous ablation and complementary procedures for better results	<i>Nabeel Ibrahim</i>
	Treating varicose veins patients with ELT using a 1470nm radial fibre laser	<i>Richard Harris</i>
	RV Closure Fast and how it compares to the various laser ELT options in varicose veins treatment	<i>Lourens Bester</i>
	Results of treatment using endovenous laser therapy and radiofrequency ablation	<i>David Huber</i>
	CLARIVEIN – a new concept in saphenous vein ablation. Innovative technology combining mechanical and sclerotherapy concepts	<i>Jean-Paul de Vries (Netherlands)</i>

DISCUSSION

12.30-1.30 *Lunch in trade exhibit area*

Session 2: Practical Demonstrations

1.30 – 5.15pm

Venous duplex ultrasound examination
Endovenous laser treatment (ELT) ablation
Closure Fast demonstration
Ambulatory phlebectomy
Ultrasound guided sclerotherapy

Naomi Hunter Paul Fisher
Jenny Hunter Lourens
Bester
Mark Malouf

AND OTHERS

5.30pm

Annual General Meeting of Australian & New Zealand Society of Phlebology and election of office bearers

Sunday 28 November

Session 3: Thermal Ablation ♦ Sclerotherapy ♦ Varicose veins surgery

8.30-10.15

The treatment of chronic venous insufficiency in the age of endovenous surgery *Tom Daly*

Ultrasound guided sutures for perforator vein incompetence *Geoff White*

Treating varicose veins in a vascular surgery practice using only sclerotherapy *John Teasdale and Paul Collin*

The effect of detergent sclerosants on clot formation, clot lysis and on platelets *Kurosh Parsi*

Stripping or non-stripping of the GSV – a reappraisal of the evidence *Glen Benveniste*

Varicose veins surgery 2010 – if you do it, do it well *Mark Malouf*

Minimally invasive varicose veins surgery. Review and case reports *Gary Frydman*

Discussion

10.15-10.40 *Morning tea in trade exhibition area*

Session 4: Venous Thrombosis & Leg Ulceration

10.40.12.30	Current guidelines in venous thromboembolism prophylaxis, especially in relation to venous treatments	<i>John Fletcher</i>
	Current best practice in the treatment of DVT, muscular vein thrombosis and superficial vein thrombosis and how to predict who will develop the post-thrombotic syndrome	<i>Abdullah Omari</i>
	Iliac vein stenting	<i>TBC</i>
	Dilatation and stenting for iliofemoral venous thrombosis	<i>Lourens Bester</i>
	Optimal workup and choice of dressings and compression for venous leg ulcers	<i>Mauro Vicaretti</i>
	New horizons in the management of venous leg ulcers, where are we heading?	<i>Michael Stacey</i>
	C4-C6 patients – profile of this group and treatment options	<i>Mark Malouf</i>

DISCUSSION

12.30-1.30 *Lunch in trade exhibition area*

Session 5: Venous Duplex Ultrasound ♦ Compression Stockings ♦ Diagnostic Imaging Rules ♦ Laser Therapy MBS Item Number ♦ Medicolegal Issues

1.30.3.30	The advantages and physiological benefit of graduated compression treatment in patients with venous disorders	<i>Abdullah Omari</i>
	The major advance of point of care portable duplex venous ultrasound	<i>Mark Malouf</i>
	Being accredited to provide venous duplex ultrasound - The latest in Diagnostic Imaging Accreditation	<i>Bernard Bourke</i>
	CMBS item number for laser treatment (ELT) – are we any closer ?	<i>Kurosh Parsi</i>
	Medicolegal issues and venous treatments – who is being sued and why ?	<i>Andrew Took</i>
	Current advances in e-health	<i>Gary Frydman</i>

Discussion

3.30 – 4.00

Afternoon tea in trade exhibition area

SESSION 6

SCLEROTHERAPY & MICROSCLEROTHERAPY SEMINAR

***Mark Malouf
and
Paul Collin***

4.00-5.30PM

- **Material and methods**
- **Sclerosants**
- **Patient selection**
- **Direct sclerotherapy**
- **Ultrasound guided sclerotherapy**
- **Techniques**
- **Compression**
